CORONAVIRUS (COVID-19) AND YOUR DRINKING WATER

Your drinking water is safe and will remain available during this pandemic. The CDC reports that the COVID-19 virus has not been detected in drinking water¹ and the filtration and disinfection methods used by Vandenberg Village Community Services District (VVCS D) are sufficient to disinfect water for contaminants, including COVID-19. Our groundwater wells would not be sources for COVID-19 and testing throughout our distribution system ensures a chlorine residual so water is clean and safe for consumption.

VVCS D routinely monitors for constituents in accordance with Federal and State laws and meets or exceeds all standards. Our most recent water quality report can be found at <http://vvcasd.org/water-quality.html>

PAYING YOUR BILL

To protect our employees and our ratepayers, VVCS D is encouraging the use of our alternative bill payment options for the near future:

- Checks may be mailed to 3745 Constellation Road or placed in our dropbox at the rear of our building.
- Payments via credit card may be mailed, placed in our dropbox, called into the office at (805) 733-2475, or made online at <http://vvcasd.org>.
- Our drive-up window will be available for those who wish to pay with cash.

ATTENDING PUBLIC MEETINGS

On March 12, Governor Newsom issued Executive Order N-25-20 waiving some Brown Act requirements and allow "local or state legislative bodies to hold meetings via teleconference and to make meetings accessible electronically."

To encourage social distancing while maintaining public participation at our board meetings, VVCS D will set up a conference number for the April 7 regular board meeting so that the public may participate via telephone.
