"District") has duly determined that the public interest and necessity demand the acquisition of the existing privately-owned water system serving the District and the construction of improvements thereto and the acquisition of the existing privately-owned sewer system serving the District and the construction of improvements thereto, and has further duly determined that the acquisition and improvement of each of such systems should be financed by the issuance of revenue bonds under the Revenue Bond Law of 1941;

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of Vandenberg Village Community Services District, as follows:

Section 1. A special revenue bond election shall be and is hereby ordered and will be held in the District on Tuesday, April 2, 1985, at which election there shall be submitted to the qualified voters of the District each of the following measures for issuing revenue bonds under the Revenue Bond Law of 1941, to wit:

<u>MEASURE (A):</u>	Shall Vandenberg Village
(Water System--	Community Services District
Revenue Bonds)	issue revenue bonds in the
	principal amount of not to
	exceed \$3,100,000 pursuant
	to the Revenue Bond Law of 1941 to provide funds
	for the acquisition of the existing privately-
	owned water system and acquire under eminent
	domain or otherwise, the land, property, and rights
	of any character whatsoever of the existing
	privately-owned water system serving the District
	and provide for the construction of improvements
	thereto, and other works, properties or structures
	necessary or convenient for the improvement of
	the water system of Vandenberg Village Community
	Services District?

MEASURE (B): Shall Vandenberg Village
(Sewer System-- Community Services District
Revenue Bonds) issue revenue bonds in the
principal amount of not to
exceed \$900,000 pursuant
to the Revenue Bond Law of 1941 to provide funds
for the acquisition of the existing privately-
owned sewer system and acquire under eminent
domain or otherwise, the land, property, and rights
of any character whatsoever of the existing
privately-owned sewer system serving the District
and provide for the construction of improvements
thereto, and other works, properties or structures
necessary or convenient for the improvement of
the sewer system of Vandenberg Village Community
Services District?

Section 2. (a) The estimated cost of the
acquisition and improvement of the water system set forth in
Measure A is not in excess of \$3,100,000 and the principal
amount of revenue bonds proposed to be issued therefor is not
to exceed \$3,100,000, and the estimated cost of the
acquisition and improvement of the sewer system set forth in
Measure B is not in excess of \$900,000 and the principal
amount of revenue bonds proposed to be issued therefor is not
to exceed \$900,000;provided, that said estimated costs
herein set forth shall not be deemed to constitute a
limitation or condition upon the issuance of any of said
revenue bonds.

(b) Said estimated costs include, in each case,
all costs and estimated costs incidental to or connected with
the acquisition and improvement of said systems, together
with all engineering, appraisal, inspection, legal and fiscal
agent's fees, costs of the bond election and of the issuance
of said revenue bonds, and bond reserve funds and working
capital and bond interest estimated to accrue during the

period of construction and for a period of not to exceed twelve months after completion of construction. The enterprise for which revenue bonds are proposed to be issued under the Revenue Bond Law of 1941 as provided in said Measure A is hereby defined to be the whole and each and every part of the existing privately-owned water system serving the District and all facilities hereafter acquired or constructed for said water system, and all additions, betterments, extensions and improvements to said water system or any part thereof hereafter made or acquired or constructed by contract, purchase, condemnation or otherwise for said purpose, and the enterprise for which revenue bonds are proposed to be issued under the Revenue Bond Law of 1941 as provided in said Measure B is hereby defined to be the whole and each and every part of the existing privately-owned sewer system serving the District and all facilities hereafter acquired or constructed for said sewer system, and all additions, betterments, extensions and improvements to said sewer system or any part thereof hereafter made or acquired or constructed by contract, purchase, condemnation or otherwise for said purpose. It is hereby found and determined that the District does not now own or operate a water system or a sewer system, that the public interest and necessity require that the District acquire and improve the existing privately-owned water system serving the District and the existing privately-owned sewer system serving the

District, that the systems set forth in said measures will, when acquired and improved, constitute a complete water system and a complete sewer system for the District, that the District has no means of financing the cost of the acquisition and improvement of said systems except by the issuance and sale of said revenue bonds, that the net revenues from said water system can be pledged to the payment of the revenue bonds proposed to be issued for the acquisition and improvement of said water system and that the net revenues from said sewer system can be pledged to the payment of the revenue bonds proposed to be issued for the acquisition and improvement of said sewer system, and that said water system and said sewer system, and each and every part thereof, when said systems have been acquired and improved as aforesaid, will constitute a complete water system and a complete sewer system for the District. It is hereby found and determined that the acquisition and improvement of said systems is necessary to enable the District to exercise its public powers and functions, namely, to furnish sufficient water service and sewer service for any present or future beneficial use of the District.

Section 3. The Board proposes to issue and sell revenue bonds in not to exceed the amount and for the object and purpose specified in either of said measures if a majority of all of the voters voting on either of said measures at said special revenue bond election shall vote in

favor of either of said measures. The rate of interest to be paid on said revenue bonds shall not exceed twelve per cent (12%) per annum, payable semiannually (except that the Board, in its discretion, may provide that interest for the first year shall be payable annually in one installment at the end of such year), and each of said issues of revenue bonds shall be revenue bonds payable exclusively from the net revenues of each of said systems, respectively, which are legally available for such purpose and are not to be and shall not be secured by the taxing power of the District, and shall be issued under the Revenue Bond Law of 1941. The principal of and interest on each of said issues of revenue bonds, and any premiums upon the redemption of any thereof, are not and shall not constitute a debt of the District, nor a legal or equitable pledge, charge, lien or encumbrance upon any of its property or upon any of its income, receipts or revenues, except the net revenues of each of said systems, respectively, legally available for such purpose. No taxes shall ever be levied or collected by the District for the payment of any of said revenue bonds or the interest thereon, nor shall any property of the District be subject to forfeiture therefor, but all the net revenues of each of said systems, respectively, legally available for the payment of said revenue bonds shall be applied, respectively, to such payment. Said issues of revenue bonds, if authorized, shall be special obligations of the District and shall be secured

by a pledge of and shall be a charge upon and shall be payable, as to the principal thereof, interest thereon and any premiums upon the redemption of any thereof, solely from and secured by a lien upon the net revenues of each of said systems, respectively, and all of the net revenues of each of said systems, including the net revenues of additions, betterments, extensions and improvements thereto hereafter acquired or constructed, shall be pledged and assigned as security, respectively, for each of said issues of revenue bonds. If the necessary and reasonable maintenance and operation costs of each of said systems (which costs include the reasonable expenses of management, repair and other expenses necessary to maintain and preserve said systems in good repair and working order) are paid when due and if the interest on and principal of each issue of said revenue bonds and all charges to protect or secure them are paid when due (including such sums for sinking funds, redemption funds, reserve funds or other funds created for the better securing of any of said bonds as may be provided for in the discretion of the Board in the resolutions of the Board providing for the issuance of any of said bonds), then, subject to any limiting covenants in the resolutions of the Board providing for the issuance of any of said bonds, the remaining surplus may, respectively, be used for any lawful purpose of the District, so long as all maintenance and operation costs of each of said systems shall be paid, respectively, from said

revenues prior to paying the principal of and interest on any of said revenue bonds and prior to paying any sums for security funds which may be established by the Board in said resolutions. The Board may, subject to the provisions of the Revenue Bond Law of 1941, provide for the issuance of additional revenue bonds for the purpose of making any additions, betterments, extensions or improvements to either of said systems, which additional revenue bonds may be issued on a parity with any of said revenue bonds, subject to such limitations as the Board may specify at the time of the issuance of any of said revenue bonds.

Section 4. The Board does hereby submit to the qualified voters of the District at said special revenue bond election said measures set forth in Section 1 of this resolution, and designates and refers to said measures in the form of ballot hereinafter prescribed for use at said election.

(a) Said special revenue bond election shall be held and conducted, and the votes thereat canvassed and the returns thereof made, and the results thereof ascertained and determined, as herein provided; and in all particulars not prescribed by this resolution said special revenue bond election shall be held and conducted and the votes received and canvassed in the manner provided by law for the holding of general elections in the District.

(e) The County Clerk of Santa Barbara County shall commence the canvass of the returns of said special revenue bond election at 9:00 A.M. on Thursday, April 4, 1985, at his

office, and at the conclusion thereof shall declare the results of said special revenue bond election.
